Recognition of Sponsoring Institutions with Non-Standard Training Programs for J-1 Visa Sponsorship Examples of Non-Standard Training Focus Areas

Institutional Review Committee

This list of Non-Standard Training program types includes examples of non-standard training programs that were previously approved for participants in the Exchange Visitor Program with J-1 visas sponsored by the Educational Commission for Foreign Medical Graduates. In this list, each program type has been linked to its most closely related specialty(ies) and/or subspecialty(ies).

When a Sponsoring Institution receives Initial Recognition, descriptions of active Non-Standard Training programs must be entered in the ACGME's Accreditation Data System. These program types and relationships to ACGME-accredited programs may be selected when entering a program description.

Sponsoring Institutions may request new Non-Standard Training program types and new specialty/subspecialty relationships that do not appear on this list. Email irc@acgme.org with questions.

Proposed ACGME NST Focus Area Name	Most Closely Related Program 1	Most Closely Related Program 2	Most Closely Related Program 3	Most Closely Related Program 4
Pelvic Imaging	Abdominal Radiology		most closely itelated 1 logidin 3	
Adolescent Gynecology Adolescent Medicine Research Pathway	Adolescent Medicine Adolescent Medicine Adult Reconstructive Orthogodic Surgery
